Imported Pandas as pd
Read the files using read Cv
Print data shape
Displaying five rows using head

Then checking for duplicates and null value
Use matplot lib and plot datas
From the visualiztion we get to know about data pattern
With soutamerica has highest customer distribution
And asia has the lowest
And books and electronics are the highest selling products
And home decor being least one
And high transactions on 07-2024 and in between 9-2024 and 8-2024
